Last Price Concessions ON WOMEN'S SUMMER WASH DRESSES

There are many remaining summer days when a cool, winsome frock like one of these will more than repay you in comfort and pleasure for the little price we ask for it.

These very same dresses sold for twice the present price just a few weeks ago, but the time has come to make room for the new fall wear.

HERE THEY ARE IN TWO LOTS AT \$3.75 AND \$6.75 EACH FANCY SKIRTS REDUCED

They are in two separate lots and include Fancy Woolen Skirts and Silk Skirts, and formerly sold for \$9.50 to \$10.50. Your choice now at \$4.75 and \$6.75.

VOILES IN SHORT LENGTHS To Close Out At 25c a Yard

These pretty Figured and Dotted Voiles "of the better grade" will make up in very pretty dresses for the simple reason they are worth from 59c to 75c a yard, but for the fact they came in short lengths we are closing them out at only 25c a yard.

Each piece has sufficient material for a dress of large proportion, and you won't go wrong in buying a length for the small price of 25c a yard.

SILK DRESSES To Close Out At \$5.00 Each

When you get an opportunity to buy a Silk Dress for that small price you surely cannot go wrong. The small price does not indicate the former values of these dresses, but the time has come to close them out, and here is the price that will help us doing it—\$5.00 will buy one.

REMNANTS — REMNANTS Wash Goods or Woolen Goods

Hundreds of them are here, piled up on two tables for your selection, at less than half price.

It's strange how remnants will accumulate during sales, and it's also surprising how much you can buy for such a small amount, and how prettily you can turn out these remnants into beautiful little garments with very little work. Just a snip or two of the shears, a few stitches, and that bit of remnant becomes a new frock for the little one or a dress for the grown ups.

Remember Saturday is Remnant Day, and you can buy them on that day at half price.

THE BUTTERICK PATTERN WITH THE DELTOR WILL HELP YOU

For those who are not so fortunate as to be able to fashion their own clothes, just try the Deltor. It tells you just how to do it, how to cut it without waste as well as how to put the garment together in the twinkling of an eye.
